Donec nec porttitor erat. Nulla facilisi. Etiam dapibus nisl eget vehicula pulvinar. Curabitur aliquam pulvinar tortor. Duis facilisis accumsan purus.

#### 4.1.1 Example of Subsubsection

Praesent eu nisi commodo, vulputate neque quis, sollicitudin erat. Donec ante justo, tristique vitae mi non, ullamcorper volutpat quam. Donec ac justo in turpis tristique bibendum. Donec nec porttitor erat. Nulla facilisi. Etiam dapibus nisl eget vehicula pulvinar. Curabitur aliquam pulvinar tortor. Duis facilisis accumsan purus. Donec nec porttitor erat. Nulla facilisi. Etiam dapibus nisl eget vehicula pulvinar. Curabitur

aliquam pulvinar tortor. Duis facilisis accumsan purus.

Example of a definition:

**Definition 1** (Label). *Let  $PIC$  be the set of words  $ws$  that are tagged as noun  $N$ , pronoun  $PRO$  or named entity  $NE$ . For ever tweet post  $P$  in a collection of tweets  $T$ , words  $ws$  that satisfy the following pattern are extracted.*

1.  $ws \in N \cup PRO \cup NE$

2.  $PIC(P) = \{ws\}$

Example of a table:

Rule #	Candidates
1	Term 1
2	Term 2
3	Term 3
4	Term 4
5	Term 5
6	Term 6

Table 1: 2-Column Table.

Example of an algorithm (Note: the following is not an actual algorithm, it is just a demonstration):

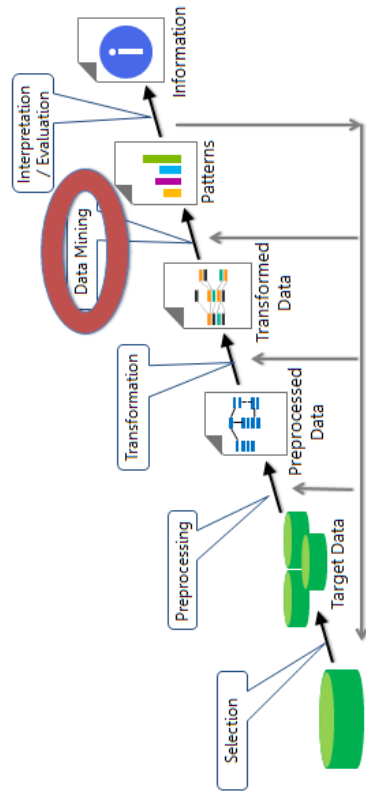

Example of a sideways figure (landscape mode):

## KDD (Knowledge Discovery in Databases) Process

Based on content in "From Data Mining to Knowledge Discovery", AI Magazine, Vol 17, No. 3 (1996)

```
1: INPUT Input of the algorithm

2: OUTPUT Output of the algorithm

3: for Each  $POST(P_i)$  in  $T$  do

4:    $c_i = checkIfRetweet(P_i)$ 

5:   if ( $c_i == False$ ) then

6:      $ws = Prunning(ws)$

Example of an equation with enumeration (Note: this is not an actual equation, it is just for demonstration purposes):

$$p(E) = \{(c_1(E), f_1(E)), (c_2(E), f_2(E)), \dots, (c_n(E), f_n(E))\} \quad (1)$$

You can also write equation without enumeration:

$$p(A) = \{(design, 100), (programming, 70), \dots, (web, 20)\}$$

Donec nec porttitor erat. Nulla facilisi. Etiam dapibus nisl eget vehicula pulvinar. Curabitur aliquam pulvinar tortor. Duis facilisis accumsan purus.

Example of a table with color (if you prefer to add color to your printed manuscript.)

	col1	col2	col3	col4
<b>Row 1</b>	No.	00	0	0
	%	00	00	00
<b>Row 2</b>	No.	11	0	0
	%	00	00	00
<b>Row 3</b>	No.	00	00	0
	%	00	00	00
